DISCUSSION

During the September 10, 2013 Board of Supervisors meeting, several members of the public requested that the Board of Supervisors hold a discussion at a future meeting related to the storage of spent fuel at the Diablo Canyon Power Plant. As a result, the Board directed that a discussion be held at a future meeting in which representatives from Pacific Gas & Electric Company (PG&E) would provide an update regarding the storage of spent fuel. County staff has been working with PG&E and this discussion is scheduled for the afternoon of November 5, 2013. It is worth noting that the Board of Supervisors does not have jurisdiction with respect to the storage of spent nuclear fuel.
